PROJECTS COMPLETED

- Since - April 1, 2017 (7.7 Years): JUSTIS - JUSTIS is Allianz Switzerland's innovative platform for managing a legal insurance subscription online. It simplifies the online conclusion and administration of the insurance. At its heart is the clever claims reporting system, in which the customer receives the right legal tips, and the secure and encrypted data exchange with the lawyers. It complies with the most modern data protection guidelines. It is maintained in Oracle, Mysql and Zend framework3.
